

Inner Sanctum

A Back to Back Garden by Archangelica Designs

Inner Sanctum

The first show garden for Rosalind Rosewarne and Charlotte Khan is under the show garden collaboration Archangelica Designs. Inspired to create a contemplative garden, the structure is based on the famous number sequence of 12th Century Pisan, Leonard Bonacci, known as the Fibonacci Sequence.

Strong architectural elements, complemented by soft flowing planting bring you to the heart of the garden. Drawn inwards with the senses of sound and smell you find respite from the hectic day, a place to sit, breathe deeply and a moment to marvel from an intimate perspective, the wonders, patterns and spirals of nature.
